

## Rising 3rd Grade

### Summer Reading, Writing and Math

1. **Read for a minimum of 20 minutes each day.** Record the titles of the books you read on a book log. Try to read one non-fiction, one fiction, and the rest you can decide!

*The American Library Association has a great website with [summer reading resources](#) for a variety of reading levels.*

2. **Work on math skills for a minimum of 30 minutes each week.** Below is a list of ideas to keep math skills sharp:

- Any workbook that reviews 2nd grade math skills (Summer Solutions workbooks, Summer Skills Sharpener workbooks, School Zone Math Basics workbooks, etc.)
- IXL website: <https://www.ixl.com/signin/lexingtonschool> - Practice the skill recommendations from your end of the year diagnostic. (Your child uses their school login for access. Email helpdesk with any login questions.)
- Fact Monster: <https://www.factmonster.com/math/flashcards> - A way to practice addition, subtraction, multiplication, and division facts.

3. **Write a letter to your teacher introducing yourself.**

- Typed or written
- Doesn't have to be a specific length, but please make a thoughtful effort
- You may include your hobbies, interests, pets, strengths or weaknesses, wishes or fears, or even what you are looking forward to in your new classroom.

**\*The book log and letter are due to your 3rd-grade teacher on the first day of school!**
