

Rising Second Grade

Summer Reading, Writing, and Math

1. Read for a minimum of 20 minutes each day. Record all completed books on paper.
2. Write a letter to your teacher introducing yourself.
3. Work on iXL math skills or other math games/practice for a minimum of 30 minutes each week.

Summer Reading

For reading, your child should read a minimum of **20 minutes** each day this summer while keeping a log of book titles either handwritten or typed. Bring the reading log on the first day of school this fall.

The American Library Association has a great website with [summer reading resources](#) for a variety of reading levels.

Summer Writing

Please take some time and write a letter to your new teacher.

It does not have to be a certain length; just make it a thoughtful effort.

Here are a few ideas to get you started. If that is all you need, great! In no way should you feel limited to these ideas:

- ***Hobbies***
- ***Interests***
- ***Pets***
- ***Your strengths or weaknesses***
- ***Your wishes or fears***
- ***What you are looking forward to in your new classes***

Your teacher looks forward to receiving your letter on the first day of school.

Summer Math Practice

For math, your child should work on math at a minimum of 30 minutes each week. This can be accomplished by working on the [iXL website](#), or [click here to order an iXL workbook](#). If your child is new to TLS, or if your child has forgotten their username/password, please email the helpdesk at helpdesk@thelexingtonschool.org, to request a username and password for iXL.
